

#### SO-CALLED BONUS

THE so-called bonus bill, as everyone knows by now, was vetoed by the President and his veto sustained by the Senate. The Constitution of the United States provides that if the President vetoes a bill two-thirds of the Members of both Houses of Congress must vote to override the veto or it will not become a law.

The House immediately voted to override the President's veto with nearly a hundred votes to spare. The Senate the next day sustained the President's veto by nine votes. This means that the only chance for the bonus to be paid this session of the Congress will be for the Senate to attach it as a rider to some other bill. This cannot be done in the House. If that is done the House accepts it as an amendment—which it undoubtedly would—it will again go to the President, who must approve the whole bill or veto it. He could not approve it in part and veto it in part.

While I have a great admiration for the President, I have always been committed to the immediate payment of this obligation, and it is my prediction that if not at this session of the Congress it will be paid at the next session.

#### JOB

There comes to my desk each day an average of fifty letters from my constituents, requesting me to get them jobs. I wonder if the people back home really understand how limited is the ability of their Representative in Congress to get them jobs. As a matter of fact, a Member of the House actually controls no positions other than Postmasters. His ability to assist in obtaining other Federal jobs is limited to recommendations.

I have followed the policy since I have been in Congress of recommending every worthy individual in my district who applies to me for assistance. But the people should understand that a Congressman's ability to obtain these jobs is limited to these recommendations.

There will be many jobs under the \$4,800,000,000 appropriation, but Congressmen will not control them. These jobs will be given out by the constituted authorities.

#### CAPITOL ACTIVITIES

(By Walker Wood, Secretary of State)

MISSISSIPPI is to have five new C. C. Camps to be located in Stone, Union, George, Scott and Franklin counties. Enlistment of 1,080 recruits needed to man these camps will be started early in July.

The survey of the Natchez Trace has been completed from Natchez to Nashville, and an estimate made of the cost from Natchez to Tupelo. The estimate has not been made public, but it is expected that Congress will be asked for \$25,000,000.00 for the entire project.

The first renewal of a business charter as far as records in the office of Walker Wood, Secretary of State, have revealed so far, was recorded in the office of the State a few days ago. When charters were first granted to corporations they were given perpetual existence; then 99 years; in 1892 the period of existence was changed to fifty years. As there has to be a first in everything, the honor of being the first business to renew its charter goes to the Natchez Printing and Stationery Company.

Jackson was honored on Monday, June 27th, by a visit by Dr. E. Wendler, Germany's Consul at New Orleans, who delivered an address before the Jackson Rotary Club. Other prominent visitors to the Capital City during last week were J. V. Hodgson, deputy attorney general of the Hawaiian Islands, and L. H. Goddard, the statistician of the territory. They visited the State Tax Commission to study Mississippi Sales Tax Set-up, as Hawaii has enacted a Sales Tax to become effective July 1st.

The Tennessee Valley and Tombigbee River Association, with domicile at Aberdeen, Mississippi, was incorporated recently, and its charter recorded in the office of Secretary of State Walker Wood. The purpose of the Corporation, which is non-profit, is to construct or have constructed a navigation canal to extend from the lake or back water to be created by the construction of the Pickwick Dam on the Tennessee River in Tennessee by way of Bear Creek Valley in Colbert and Franklin counties, Alabama, and Tishomingo County, and Mackeys Creek Valley in Mississippi and Alabama from its source to tide water at the Port of Mobile.

The Mississippi National Guards will play at War Games for the first time since the World War, according to Adjutant General Thomas J. Grayson. He states that full peace time strength will assemble at Camp Beauregard July 31 to August, and will engage in war time maneuvers. The 31st Division will be composed of a brigade of infantry, and a regiment of field artillery and train.

## 28 B. H. S. SENIORS RECEIVE DIPLOMAS TUESDAY EVE AFTER SUCCESSFUL TERM

G. O. Kerr, Jr., Salutatorian; Miss Caroline Ballard, Valedictorian—State Supt. Of Education, W. F. Bonds Delivers Address

Twenty-eight seniors from Bay St. Louis High School received their diplomas at commencement exercises Tuesday evening, May 28, successfully completing the course of study as prescribed by the high school department of the State of Mississippi.

Rev. Bro. William, president St. Stanislaus College, Bay St. Louis, delivered the invocation.

G. O. Kerr, Jr., was salutatorian and Miss Caroline Ballard valedictorian. Both essays were refreshingly interesting and delightful. Miss Ballard's was away from the beaten path, original and gave manifestation of study and attention, seemingly omitting nothing.

State Supt. of Education W. F. Bonds, was introduced by City Superintendent of Schools S. J. Ingram. Mr. Bonds' address was divided into two parts, the first rather facetious and to which the audience was responsive. Mr. Bonds is a ready and happy speaker. The second part of his address was along practical lines, telling of the State's work in the schools and general accomplishment. He told of how the schools of Hancock county and Bay St. Louis had rapidly rose to high rank and stood at the top of the list whereas in other years the position of standing was somewhat reversed.

Rev. J. E. Gray, pastor First Methodist Church, Bay St. Louis, brought the evening's program to a close, but not until Supt. Ingram had personally presented the diplomas and other awards.

William Smith, of Bay St. Louis was awarded the silver trophy for being the best all-around athlete. This award is made possible by the generosity of a business man whose identity he wishes unrevealed.

Miss Caroline Ballard won the scholarship to Tulane University, New Orleans, as a reward for the highest per centage in studies and as a student in general. She is a daughter of Mr. and Mrs. Marshall Ballard, of Bay St. Louis.

There are four scholarships to select from and given by Tulane-Newcomb, one scholarship with two choices, Miss Ballard selecting Tulane. The other are Mississippi Women's College at Hattiesburg, Whitworth at Brookhaven, and Gulf Park College, Gulfport. The other selections go to students of highest merit and wishing to avail themselves of the opportunity to continue their studies.

The class song was enjoyed, with Mrs. Carl Smith, piano accompanist. Mrs. Smith played both the processional and recessional.

Twenty-eight graduating and receiving diplomas are:

Caroline Catherine Ballard, Roy Baxter, Jr., Wilfred Anthony Bordeaux, Maude Alcide Bourgeois, Betty Pearl Boyer, Eulalie Coward, Mary Louise Crawford, Mildred Alce Dean, Durant Harry de Ponte, John Alton Erwin, Faurie Ferchaud, Irma Barbara Garriga, Beulah Annie Honea, John Roy Jordy, Charles Edgar Kergosien, G. O. Kerr, Jr., Phyllis Aileen Kidd, Giovanna Marie Lentini, Tyrell Theodore Manieri, Lena Pearl Miller, Evelyn Lucille Murphy, Francis Wesley Nelson, Leopold Franklin Parker, Louise Christine Strong, Vivian Agnes Telhiard, Elizabeth Jane Wells, Nettie Mae Wilkinson, Daniel Jacob Ziegler, Jr.

Arthur Springer of Hattiesburg, narrowly escaped drowning during the week-end off Ship Island while on an outing with 35 students and teachers of State Teachers' College and several guests.

He was in a weakened condition from being seasick and, while swimming, went out too far from shore and could not return to the island alone.

He was rescued by two of the boys on the party.

## ROTARY TO HOLD INTER-CITY MEET

First Tuesday in July Will Witness Joint Event by Pass and Bay Clubs

E. A. Lang and Prof. Frank French, a committee from Pass Christian Rotary Club, met Tuesday evening with the Bay St. Louis club and an inter-city meeting was planned to be held probably in Bay St. Louis on the evening of Tuesday, July 2, when the installation ceremony will take place of newly-elected officers of both Bay St. Louis and Pass Christian clubs.

A committee of three from Bay St. Louis was appointed to plan for this event, formulate a program and to execute all arrangements, composed of Chas. G. Moreau, chairman; Dr. James A. Evans and Joseph J. Schaff, to work with a similar committee from the Pass.

The event will be a Ladies' Night and whether a dance will be on the program is to be decided, also the place of holding such banquet and subsequent entertainment.

Bay St. Louis Rotary Club held another interesting meeting Tuesday night and elected another new member. The local club is rapidly expanding its local membership and this club of professional and business men bids fair to again take its place as formerly and become a most active factor in the civic and general advancement of the community.

## WILL CHAPMAN DIES AFTER LONG AND LINGERING ILLNESS

Passed Away at Early Hour Sunday at Local King's Daughters Hospital

Following a lingering illness, during which time until recently, he was able to up and about, William West Chapman, quietly passed away Sunday morning, Bay St. Louis King's Daughters Hospital at 4:45 o'clock.

A native of New Orleans, in his 46th year, he was the husband of Gladys Weston and son of Caroline B. West and the late W. J. Chapman. He was a brother-in-law of Senator Carl Marshall—Mrs. Marshall a sister.

Funeral ceremony was held from the late residence on North Beach Boulevard Monday morning at 10:30 o'clock, with interment at Cedar Rest Cemetery in the family burial plot. He is survived, in addition to his wife, by a young son and daughter.

Mr. Chapman for years was identified with the sales department of the Simmons Hardware Company of St. Louis, as traveling representative and succeeded his father who held similar responsibility with the same firm for over a long period of time.

A number of years ago his health began to fail and a gradual decline brought a once active and useful life to an end.

He was identified with the Episcopal church, a member of Christ Church (Beach Boulevard and Carroll avenue) all of his adult life. His demise is an occasion for sorrow and the bereaved family have the sympathy of a wide circle of friends in Bay St. Louis and elsewhere.

## CITY ACTS ON DOG DANGER

Mayor and City Commissioners Take Action Regarding Safety of Public

Mayor Blaize and City Commissioners Bourgeois and Perkins have issued an advertisement warning owners of dogs to keep same off the streets in order to avoid a present danger.

Dogs found strayed on the streets will be summarily dealt with. It has developed that persons have been bitten of late and that this is the season for rabies to develop. Keeping dogs at home will take care of such animals from being bitten from other canines that might be afflicted.

"The city is taking the utmost precaution," said Mayor Blaize, "to protect the public from any possible danger at this particular season. The city realizes one's dog is valued and none wish theirs to be molested, but in the interest of humanity, we must protect the public and we have spared no effort and will spare no expense to guard the public from any unnecessary and vicious dog attacks."

The warning published on the front page of The Echo is in justice to all concerned.

## PEO HARDING DANCE CONCERT PRESENTED TO SELECT AUDIENCE

Young Dance Artist Dances Way Into Hearts of Many; St. Stanislaus Band Scores

One of the largest audiences to assemble at St. Stanislaus College gym was noted Sunday night on the occasion of presentation of the Peo Harding Dance Concert, an event of artistry and of social interest. The elite of Pass Christian and from other sections of the Gulf Coast mingled with that of Bay St. Louis in paying tribute to this young artist who has an outstanding career for the future.

A pupil of Miss Emelda Troxler of New Orleans, Miss Harding gave all evidence of not only native ability to do but a pupil excellently trained. Her interpretative dances showed technique, rhythm and understanding. Her numbers were varied, no two alike. For each there was a special costume, Lester, Ltd., professional costume designers and makers, supplying for this occasion. These were noted for design, color and material used.

Miss Troxler assisted Miss Harding and it became evident, she was not only professional in her dancing but possessed of a personality and charm all her own. "Miss Troxler in her number of 'The Merry Widow' waltz, with her partner, Duncan Harding, swept the audience and repeated applause caused the entire number to be repeated.

Miss Harding, too, was repeatedly applauded and repeated one or more numbers. She was presented with lovely flowers after every number by admiring friends. Miss Harding is the only daughter of Mrs. Duncan B. Harding, in her immediate early teens and has danced her way into the hearts and admiration of friends and the public in general.

Miss Betsey Frith, pupil of Miss Troxler, presented three numbers of inestimable charm and grace. Miss Troxler appeared as a guest dancer. Piano accompanist, Miss Ellen M. Stier whose music was an all-important factor to the success of the concert.

St. Stanislaus Band  
The Peo Harding Dance concert was given under auspices of the Parents' Club of St. Stanislaus College, benefit Stanislaus college band, the latter under the leadership of Rev. Brother Romauld, instructor. It was appropriate the band had an important place on the program of the evening and interspersed the

WHERE TO SPEND THE WEEK-END  
With the advent of warmer weather the Mississippi Gulf Coast is calling the outsider. Fishing, boating, bathing await the visitor. The motorists will find this section a veritable paradise.

Mississippi State Supreme Court Monday handed down a decision in the case of Dr. W. S. Speer versus S. Schemper, of Hattiesburg, sustaining the decision of the lower court that the former, injured in an automobile accident, must be paid the sum of \$10,400 plus accrued interest and all costs of court. In this the court, we are informed, was unanimous, the judges of the supreme bench unanimously agreeing.

Thus the case is final and unless the sum of money is voluntarily paid attorneys for the plaintiff will, in due time, proceed to execute. Dr. Speer was represented in his damage suit by Attorneys Gex & Gex, of Bay St. Louis.

The case dates back since February 27, 1934, when Dr. Speer, chiropractor, practicing in Bay St. Louis and Picayune, was traveling in his car at a moderate rate of speed along the Nicholson-Picayune highway. While crossing over a bridge, it appears, a truck belonging to S. Schemper, a junk dealer residing in Hattiesburg, and driven by someone in his employ, sideswiped Dr. Speer's car to the extent that it tore the side from the car as completely as it had been planned and done by hand. Giving Dr. Speer a severe jolt, from which he subsequently suffered a dislocation of the heart, he managed to right his car and regained his senses and followed the hit-and-run driver of the truck until he was close enough to take the number of the license and on his return home reported what had occurred.

Too ill to take action at once and since then desperately ill, he finally, through his attorneys made demand on the defendant for proper reimbursement, etc., which was refused, it was stated. It was then his attorneys, Messrs. Gex & Gex filed their suit in the Forrest county court, where Mr. Schemper resides.

Mr. Schemper was protected by liability insurance in the amounts of five and ten thousand dollars. It was stated he was solvent for whatever difference the company would not pay.

numbers with varied selections. These consisted of overtures and other difficult compositions. It was evident this cultured audience enjoyed and appreciated the music for well was this proven by their unanimous and prolonged applause.

Bro. Romauld's ability to teach and the success of his boys well pay tribute to his ability as a master.

Miss Harding's concert will remain one of those events not to forgotten and it is well that so many were present and privileged to enjoy the evening and its well balanced program.

## COURAGE OF HIS CONVICTIONS

PRESIDENT Roosevelt, regardless whether one favors payment of bonus now or in 1945, as per original bill, has won the admiration of every man who will concede to him the courage of his conviction in vetoing the Patman bonus bill. His message was clear, concise and emphatic and the logic of his position is well tenable.

Here are the main reasons for vetoing the bill:

Full payment of the bonus bill is not due until 1945.

It directs payment to the veterans of \$1,600,000,000 more than was contemplated in the 1934 bonus act.

It would not be an aid to relief because it would not improve conditions necessary to expand these industries in which there is the greatest unemployment.

The issuance of new currency as the method of payment would raise similar demands for the payment of claims of other groups which "invites an ultimate reckoning of prices and in destruction in the value of savings."

Congress did not provide additional taxes to cover the expenditure of \$2,200,000,000 contemplated in the bill.

Inasmuch as Presidents Harding, Coolidge, Hoover and Roosevelt have vetoed bonus bills one must come to the conclusion that there is something wrong with the presidents or the bonus legislation.

## NOT WORTHY OF FOEMAN'S STEEL

THE candidate who must resort to billingsgate in order to bolster up his own candidacy has little or nothing to recommend himself for political preferment.

To berate men, honorable and tried citizens—who have been weighed in the balance and not found wanting—have little to fear from this sort of opposition. It denotes a sign of weakness, an admission of coming defeat. It is not only unethical but far from becoming one who would seek public confidence and hold public trust.

It is akin to the merchant who would attempt to sell an article decaying goods of another. In fact, it is not done.

We have never seen it fail. Some little, insignificant fellow, without prestige or background, becomes obsessed with a notion he wishes to run for office and forthwith illegitimately "runs," minus experience or any substantial reason why he should so come out. However, we have confidence in the public. They will vote for men who have been tried and made the grade. Men who are substantially identified with the county in more ways than one; men who have made successes. And entitled to the consideration of right-thinking people.

Up to and including May 21st there had been collected by the State Tax Commission, according to a statement made by Chairman Alf Stone, a total of \$2,745,362.71 from all sources as compared with \$2,296,231.43 for the same period in 1934, or a net gain of nearly a half million dollars.

## DRUNK MEN AND AUTOMOBILES

IT is reported, occasionally, in Hancock county that some drunken man has been seen driving an automobile on the public highways. We can hardly conceive of a more dangerous habit. To check it effectively will require drastic and certain punishment regardless of whether an accident occurs or not.

It will not do to permit the inebriated man to run his automobile on the highway to the peril of law-abiding citizens. The danger is real to all who have ever met a drunken driver. Many accidents occur every day in this country thru drinking and driving. It simply cannot be done with safety, and society should take prompt steps to make it highly unprofitable to those who persist in operating auto vehicles without regard to their condition.

## ONE CANDIDATE WHO AT LEAST WILL GET ONE VOTE

THE West Point Times-Leader wants to know who is backing the gubernatorial campaign of Lester Franklin.

That's easy to answer, says the Jackson News. "Lester Franklin, campaign is being backed by Lester Franklin, freely, fully, wholeheartedly, unreservedly."

"Lester is for Lester. He is his own first choice, second choice, third choice, or whatever else have you."

"He is running himself with the consent and apparently without the support of anybody except himself."

The Governors' Conference will be held at Biloxi on June 13, 14 and 15, 1935, with Governor Sennett Comer as Host Governor. The program of entertainment includes auto drives, teas, receptions, bridge parties, banquet, dance, tennis, golfing, boating, swimming, and fishing, and a trip to Ship Island. The first two days will be devoted mostly to business. The Governor will be assisted by his staff, and Adj. Gen. and Mrs. Tom Grayson.

## SHOWS COURAGE

EVEN those inclined to disagree with President Roosevelt must applaud the courage exhibited in disapproving the bonus bill.

Whether payment of the adjusted service compensation certificates at this time is wise or unjust is another question. Here was the President facing a dangerous political issue with an obligation to execute his duties in accord with his own convictions. That he did so without quibbling is reassuring.

It is worth nothing that Mr. Roosevelt is apparently willing to stand or fall on his merits. Everybody remembers that he recently told the leaders of big business where to go. Now he points the same direction to those who lead the veterans' lobby. Both organizations are powerful and able to hurt even a president when and if they seek political vengeance.

It might be well for people to realize that the present occupant in the White House has a mind of his own. To stem the depression he has set in motion many innovations but, it may be, when the nation recovers he will be just as vigorous in chopping away the debris of unnecessary bureaucracy. While seeking to advance commodity prices and to equalize the national income he may do many things that he will consider unwise once the goal has been attained. To oppose excess and avoid extravagance when that day comes will require as much courage as one man has and it will be necessary for Mr. Roosevelt to say "no" to other groups seeking special treatment and governmental favors.

## RECREATIONAL CENTER FOR CITY

THE intention of the city of Bay St. Louis to go after \$50,000 from the recent federal appropriation of billions for the purpose of the government building either a recreational pier or recreational center for this city is both worthy of commendation and of the co-operation of every citizen and friend of this section.

It will be remembered this was the city's original intention, of appropriating or setting aside \$50,000 from a recently proposed bond issue of \$100,000 and which failed of vote, even though \$30,000 was to have been given as federal aid.

Mayor Blaize and associates are not particular as to just what the project be, whether a pier with building to afford bathing facilities, etc., or a public park with buildings, such as comfort stations, dance pavilions, picnic quarters and playgrounds for children, but something of this kind that will not only interest our own people but help entertain our thousands of visitors that visit here season after season.

Bay St. Louis is acutely in need of such improvement. We hope the matter will not be unnecessarily delayed; that we will see the early consummation of such project. It will pay this city big dividends. Now that federal funds are available we should see that we get it.

Eight million dollars is the sum allotted to Mississippi work.

What this country really needs is some genuine interest in the general welfare without so much regard to the number of votes affected.

## ABOUT READING BOOKS

THE average author puts more time in writing a good book than any reader will ever take in reading it. When you purchase and read the effort of a reputable writer you are getting, in a few hours, what required many weeks of his time and thought. Naturally, unless you are an intellectual wizard, you will benefit by judiciously reading some books.

The question arises, "What shall I read?" The answer is not as easy as it seems. Those who have, in their work, considerable study to do, or who have considerable writing to do, may prefer light stories to pass away their time. Others, whose work does not require prolonged mental effort, will prefer works of a more serious nature. Certainly the young man or woman, who wishes to learn of the things of the world and to make progress along intellectual lines, will find it profitable to make it a habit to read good books.

## MYSTERY EXPLAINED

IN New York last week a small girl was missed. Hundreds joined in the search that was organized, suspects were questioned and kidnapping was feared.

After two days it was recalled that the children of the neighborhood had been playing in a cave. When this was visited her body was found, buried under a cave-in, which evidently occurred when she went there alone.

If her body had not been discovered the community would have always been puzzled over her mysterious disappearance. Perhaps the tragic fate of this little girl reveals the secret behind other similar disappearances which have never been solved.

Trading at home may mean more to the people of Bay St. Louis if they understood that the tariff is based on just such a policy.

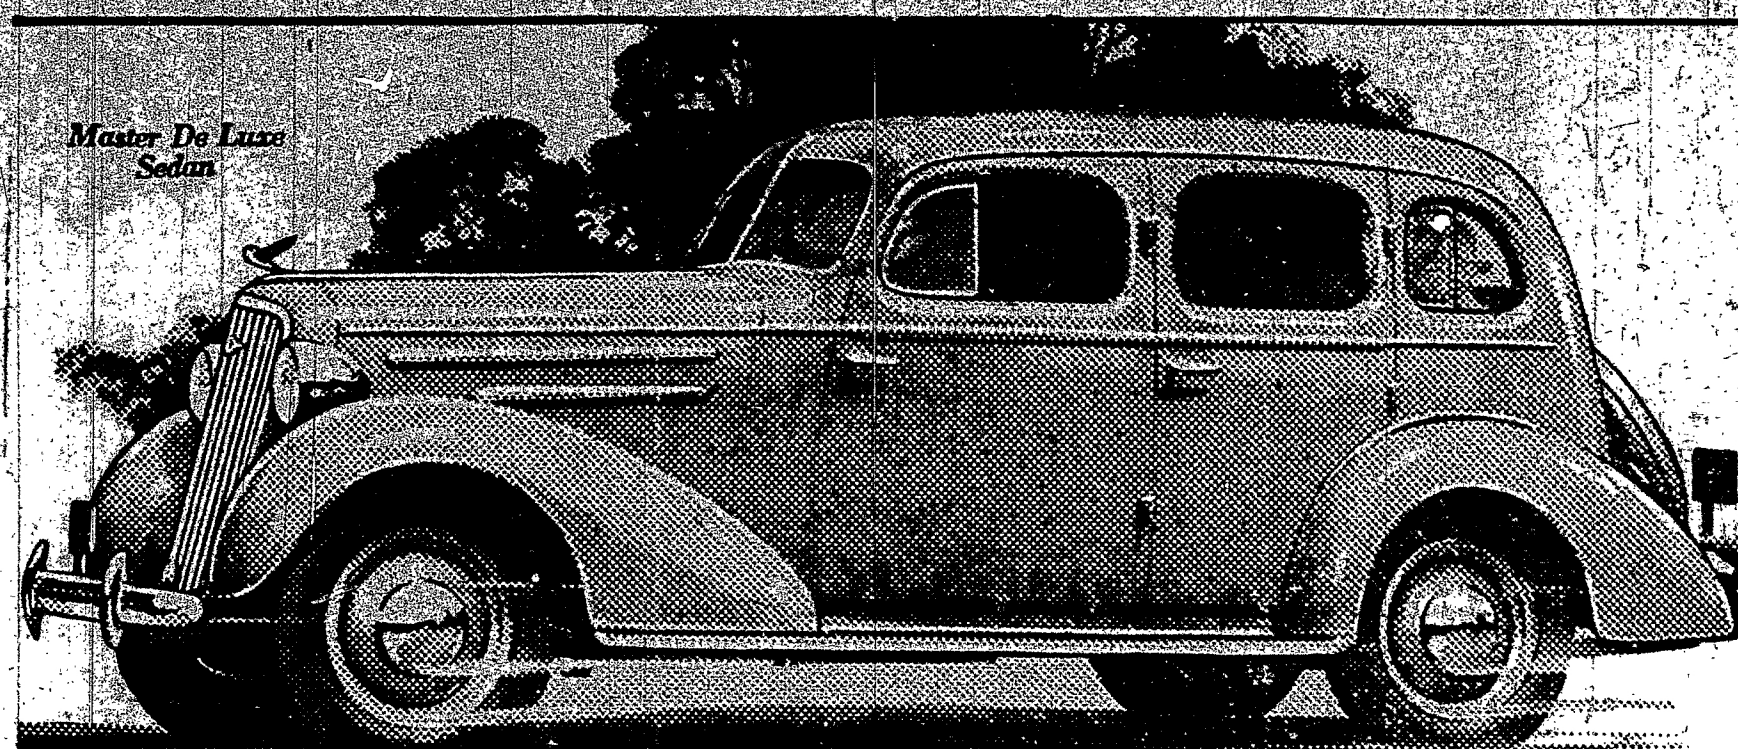

## ON DANGEROUS GROUNDS

THE fear of irreparable loss that grips tens of thousands of investors in holding companies has not been quieted by reports from Washington that "modifications" are being made in the Wheeler-Rayburn bill.

The apparent purpose of that anti-holding company bill is to destroy such companies by 1940. No provision is made to compensate helpless investors, or provide for the thousands of employees who would be thrown out of work. To any reasonable person such a procedure is an unfair and un-American thing to do—to use the power of government to deliberately crush an industry—any industry.

Fair regulation of industry is one thing, wiping out an industry through mere political power smacks of abuse of authority delegated to public servants of the people.

When citizens awaken to abuse of power they

### FREE SCHOOL BOOKS

(Jackson Daily News)

THE Winston County Journal thus tersely tells the truth about the subject of free school books, one of the cheap pieces of sucker bait being used in the gubernatorial campaign:

Relative to our offering a free announcement fee to any candidate who can prove that there "ever was a child kept away from a Mississippi school solely for the lack of books," one of our friends asked us if, that was meaning that we were against free school books. We answer, yes and no. If there were such a thing as "free school books," we would favor it. But there has never been, and never will be free school books in any state, for no printing establishment is going to print books and give them away. And should the state print them they would be anything but free, for the taxpayers would pay for them double over what the people are now paying for them. We do not believe there is a child in Mississippi, unable to buy books but who has a neighbor who would buy them for it; besides, it is the duty of the board of Supervisors to do it now, under certain conditions.

It's worse than that. Free school books, with distribution in the hands of professional politicians, would mean an orgy of graft and extravagance in Mississippi, even to the point of loading down every ten-year-old pickaninny with twenty pounds of school books in order to make business better for the book agents and publishers.

It is now the law in Mississippi that boards of supervisors are required to furnish free school books to children whose parents are unable to buy books. That is quite sufficient.

Any candidate who tells you he favors free school books is willing to risk piling an enormous tax burden on the whole people merely in order to capture the votes of the unthinking.

### STATE PUBLISHERS HONORED

(Neshoba County Democrat)

TWO Mississippi publishers were signally honored at the recent 50th Anniversary Convention of the National Editorial Association held in New Orleans May 4-12.

Clayton Rand, publisher of the Gulfport Guide, was elected to the Vice-Presidency of the Association.

Oliver Emmerich, of the McComb Enterprise, was awarded first place in the national contests for the best editorial page, and also first place for the best use of feature material.

Both Rand and Emmerich have earned national honors on several

occasions before. They are outstanding publishers and have brought distinction to themselves and to the State by their achievements.

The press of Mississippi is proud of their record.

Incidentally, it may be said that oftentimes people lose sight of the obvious because of its very proximity.

We always think of what good peaches are raised in Georgia, when, as a matter of fact, we can produce just as good right here in Neshoba county.

We hear of the New York Times, the Chicago Tribune, and other big papers.

But the real value of these papers is no greater, if as great, than many

## Lt.-Governor Dennis Murphree

His platform is good from bottom to top, every plank in it. He believes we should have good roads within the bounds of reason. He believes we should have all good things but the best thing he believes in is pay as you go. In other words he is not in favor of burdening the people to death with taxation. We have had bad roads for a thousand years, why not be content to have good roads in a few years, instead of all at once. If he had but one plank in his platform, pay as you go, it alone should elect him Governor of Mississippi.

### SENSATIONAL TIRE HUNT FINISHED BY NOTED DETECTIVE

Joseph A. Faurot, Former Deputy New York Commissioner, Gathers Evidence On Goodyear G-3's

One of the most unusual and spectacular surveys ever conducted by an American manufacturer has just come to an end in New York City with the arrival there, following a two-months' "tire hunt," of Joseph A. Faurot, one time Deputy Police Commissioner of that city and the man who first used fingerprints as evidence in an American courtroom.

News of Faurot's sensational search for tire evidence from one coast to the other has just reached Ed J. Arceneaux, local Goodyear tire dealer. The famed detective's inquiry has revealed overwhelming national approval of the new "G-3" All-Weather Tread tire, it is stated by Mr. Arceneaux.

Setting out from New York with James Cannon, ace Manhattan newspaper man, who had just completed work on the Hauptmann case for his afternoon daily, Faurot visited parking lots, gas stations, garages and back yards from New York to San Francisco and from Winston-Salem, North Carolina, to Detroit. Whenever he paused, he "third-degreed" car owners for tire clues. They interviewed thousands of tire users and the results of this inquiry, according to Mr. Arceneaux, produced evidence of the outstanding performance of the "G-3" in all parts of the nation.

"I have been gathering evidence for a long time," Faurot stated on his return to New York. "I guess I have worked on every kind of case that comes into a big police department's jurisdiction. But never have I seen a clearer case than that in favor of the 'G-3.' My notes contain cold facts I gathered in Whitesville, W. Va., Kansas City, Mo., Royal Oak, Mich., Albuquerque, N. M., and hundreds of other places. I say they are cold facts. That's the truth. Every leaf out of my notebook shows satisfaction in the ownership of G-3's."

Faurot is present Chief of the Department of Identification of the Commercial Crime Commission.

### HUGH WHITE WOULD REFUND ALL COUNTY OUTSTANDING BONDS

If Elected Governor, He Favors—Wishes to Industrialize Mississippi

"One of the best methods that the people of Mississippi have to gain immediate tax relief is by refunding all outstanding county, state, municipal, drainage district and other bonds at a rate of interest not exceeding 3-per cent," Hugh White, candidate for governor declared in a recent speech.

Mr. White, widely known throughout the south for his success in operating his own plants, since the closing of his mills has devoted a major portion of his time to gaining new industries for Mississippi.

Many of the new industries located in the state as a result of the activity of the Columbia industrialist who is now seeking the governor's office on a platform keyed by his argument for the balancing of agriculture with industry.

In speaking of refunding the bonded indebtedness the candidate pointed to the fine condition of the state's financial setup and discussed in detail the fact that would come to the tax payers should all outstanding bonds be refunded over a long period of years at a low rate of interest now obtainable.

"The refunding of bonds and the bringing of new wealth to the state, which means that we place more wealth on the assessment rolls and yet the cost of government does not increase are the two things that will allow Mississippi to offer her citizens all privileges other states offer and will also allow the state to have a very low tax rate," Mr. White declared.

Other planks in Mr. White's platform that are meeting with great approval are his plans for the electrification of the state by TVA and \$1 automobile license tags with the repeal of the present automobile privilege taxes.

Mr. White is now on his speaking itinerary and will speak two or more times in this county prior to the August primaries according to his headquarters.

### THREE HOT SONG HITS ADD ZEST TO "GOLD DIGGERS"

Illustrating in picture, lyrics and melody the story of a sophisticated Broadway dahn, when the show-gals and play-hoy start for their homes to get some much needed sleep just as workaday Manhattan is awakening to the rattle of milk bottles and the roar of morning trains—such is the "Lullaby of Broadway," which will be shown at the A. & G. Theater, Sunday and Monday nights.

This "Lullaby," whose smart modern lyrics by Al Dubin are set to the swinging big-city melody of Harry Warren, is expected by the song team to be their hot-song of the first National musical comedy spectacle "Gold Diggers of 1935," which comes here Sunday.

"There are two other important songs in the show—"The Words Are In My Heart," a love-ballad in waltz time, and "I'm Going Shopping With You," a rhythm number that the bands will be crazy about," said Dubin. "But, despite the fact that our 'Lullaby' is freshish in both musical and lyrical treatment, we believe it will be widely played and sung, and will prove a hit."

With Dick Powell on the scene with her, and with a characteristic Busby Berkeley chorus of dancing beauties to set off the colorful number, Winifred Shaw sings the song. It is a true production number, also typical of "Buzz" Berkeley treatment, with numerous intercut shots, illustrated by special catch lyrics, taking the audience to all parts of Manhattan in the morning as the "Night Owls" trek homeward to sleep.

There is an all-star cast in the picture, which includes besides Dick Powell, Gloria Stuart, and Winifred Shaw, Adolphe Menjou, Alice Brady, Glenda Farrell, Frank McHugh, Hugh Herbert, Joseph Cawthorn and a chorus of beautiful girls.

### Wasting Tolls and Postage

WIRING to your senator or congressman to vote yea or nay on pending measures before Congress is well nigh a waste of time, money spent for tolls on telegrams and postage for letters. This seems to be well known by thinking people but why they persist in so doing is not exactly clear.

Senators Harrison and Bilbo will vote regardless for what they conscientiously think best and Congressman Colmer and other congressmen from the state do likewise. They are on the ground, they are better acquainted with the situation as it exists in Washington and must act accordingly. Besides, they are elected by the intelligent electorate and if they must be told and dictated to after we have sent them to the seat of government as special ambassadors from the people—what's the use? These telegrams and other messages are off times in conflict, and certainly if it resolves as a matter of pleasing how can it be done. One side has as much right as the other. Only one must prevail. Then it is up to the representative to exercise his prerogative of voting what he thinks best. It was for that reason he was elected.

## With The Movies And Film Folks

ALL filmdom is interested in the announced intention of Joseph Breen, the screen's Dictator No. 1, to take a two-month vacation in Europe. This marks the first time since the beginning of the recent clean-up drive that Mr. Breen's watchful eye has been removed from the stories which are to be and have been produced.

A picture that is likely to prove a sensation is to be released soon. It is "Becky Sharp," produced in all color under the direction of Robert Edmund Jones, working under the auspices of the Pioneer Pictures. Color is destined to play an important part in the films of the future as sound has in recent years.

Metro for years disdained the production of the Westerns, always boasting that each MGM effort was a superlative epic. However, to meet the demand of distributors of pictures to take care of the second spot on dual programs, Metro officials have decided to go into the production of the despised "horse operas."

Radio's contribution to the trend is to be a picture based on the life of Dr. Samuel Johnson, with Kenneth MacGowan as its producer.

Ruth Chatterton is back in this country after a vacation in Europe. She recently signed a contract with Columbia.

Claudette Colbert's next picture for Columbia will be "She Married Her Boss," based on a story by Thyr Samter Winslow.

After completing her work in "Alice Adams," which is set for immediate production at Radio, Katherine Hepburn will appear in "Sylvia Scarlett." John Collier, English novelist, has been secured to make a screen adaptation of the novel.

Fox has borrowed Genevieve Tobin and Anita Louise, Warner players, to appear in its production of "Melody of Life," opposite Nino Martini.

Universal selected Jack Holt for the leading role in "Storm Over the Andes."

Edna May Oliver has been given the role of Miss Pross in the cast being selected by MGM for its production of "Tale of Two Cities." Ronald Colman is to have the lead, with Walter Catlett as the villainous.

### Laxative combination folks know is trustworthy

The confidence thousands of parents have in good, old reliable, powdered, Theodor's Black-Draught has prompted them to get the new Syrup of Black-Draught for their children. The grown up stick to the powdered Black-Draught; the youngsters probably will prefer it when they outgrow their childhood love of sweets. Mrs. G. W. Adams, of Murray, Ky., writes: "I have used Theodor's Black-Draught (powder) about thirteen years, taking it for biliousness. Black-Draught acts well and I am always pleased with the results. I wanted a good reliable laxative for my children. I have found Syrup of Black-Draught to be just that."

### Market Wise

Want to make some dough?  
Here's a plan to try;  
Buy stock when they're low  
Sell them when they're high.

Or, if you're a sport,  
Ere the issues drop,  
Sell the market short  
When it's at the top.

Then when stocks have slid  
Seven points to ten—  
That's the time to bid—  
Buy them in again!

Make your dough with ease  
Save your strength and time,  
Meanwhile, could you please,  
Let us have a dime?

EVERY DAY IS FISH DAY!

Dear Customer: "THERE'S A REASON" for the delicate tenderness of fish flesh.

Fish do not have to support their body weight. The ocean—or the water in which it lives—bears the weight of fish of every size from the minnow to the whale.

By this miraculous economy of nature the fish has been relieved of the necessity for making hard muscles, gristly fibre, tough sinews and heavy bone.

All its growth has been directed toward making its flesh tender and delicate, and in storing all its food values in the flesh and not into bone and unchewable fibre.

In preparing fish do not cook it to make it tender. On the contrary, in the cooking operation you should strive to retain its natural delicacy of texture and flavor.

## FIVE DIONNES REACH COMPLETION OF FIRST YEAR—SUBJECTS OF ADMIRATION OF WORLD

Quintuplets Were One Year Old Tuesday—No Babies Have Ever Received Such Attention—Break Record For Continued Life

THE Dionne babies reached their first year of maturity on Tuesday of this week, May 28, and the world received the news as acclaimed by the press with a unanimous feeling of human love and admiration.

Dale C. Harrison, who visited the quintets at their home in Callander, Ontario, Associated Press staff writer sent out this sketch on the eve of the birthday.

Their amazing majesties the Dionne quintuplets, cooed and smiled into the fifty-second week of their lives today, confounding a world which believed it never could happen.

The year whose closing was marked by their first birthday anniversary next Tuesday has seen the five little girls:

Earn more money—merely by keeping alive—than the President of the United States;

Receive greater public notice than all the rest of the world's babies combined;

Become the subject for extraordinary legislation that made them special wards of the King; and

Set a record for continued life of quintuplets far beyond anything in the authenticated history of man.

No babies ever lived quite such a full first year as these five identical Dionnes, crowded as it has been with the inevitable hippodroming, with controversy and lawmaking, and with the merry music of a busy cash register ringing a businesslike obligation to the gurgling of five tiny throats.

In the bedchamber of the quintuplet queens there sleeps each night a policeman of his Majesty's province of Ontario. He is Ontario's answer to sinister whispers about cradle-snatchers.

It matters not to the five little ladies that their coming has created conflict, dispute and sometimes bitterness. They are too occupied with such world-shattering events as a new tooth or a chuck under the chin by the kindly, smiling Dr. A. R. Dafee.

The parents, the dissatisfied Dionnes, maintain silence, cheered sometimes by the words of many who believe with them that they should have the custody of their babies.

Mrs. Dionne is quite outspoken, on one matter. Asked if she wanted to become

a mother again, the 24-year-old farm wife replied in quick French: "I do not want to have any more children for the government."
